CTO LIVE AID 2024: UNITE FOR HEALTH, EDUCATION, AND HOPE

Dear Participants, dear Colleagues, and Friends,

As we gear up for the fifth edition of CTO LIVE AID on Thursday, May 30th, 2024, it is with great enthusiasm and a sense of purpose that we invite you to join us for this extraordinary global event.

WHY CTO LIVE AID?

Originating in 2020 as a response to the COVID-19 pandemic, it has since evolved into a premier digital charity event and an invaluable platform for interventional cardiologists worldwide. This unique initiative has not only been contributing to healthcare relief in areas most in need but also fostering a global community of physicians dedicated to continuous learning.

OUR COMMITMENT

In the past four years, CTO LIVE AID has been a beacon of hope and support.

The conflict in Ukraine prompted us to expand our reach further. In 2022, we successfully contributed over €45,000 to provide emergency medicine and equipment to Ukrainian Hospitals. This year, our commitment continues as 100% of the profits from CTO LIVE AID 2024 will once again support the charity "Support Hospitals in Ukraine."

EXPANDING OUR HORIZONS: "C'è Da Fare"

In addition to our continued support for Ukraine, we are proud to announce our collaboration with the Italian NGO, "C'è Da Fare." Committed to aiding adolescents facing psychological struggles, this partnership reflects our commitment to a broader spectrum of healthcare needs. In this crucial and challenging times for the youth, we aim to make a positive impact on the lives of the next generation

THE PROGRAM: A DIGITAL LEARNING EXPERIENCE

This year's edition promises an enriching experience with live procedures, expert insights, and international collaboration. With 6 consecutive time slots featuring 2 simultaneous live cases each, commented on by 3 panelists, the program will run for a whole day. Join us virtually at www.cto-liveaid.com for this unparalleled digital learning journey.

YOUR SUPPORT MATTERS

To sustain this charitable endeavor, we're launching a worldwide fundraising campaign, in collaboration with Humanitas Research Hospital in Milan. We call upon all medical industry stakeholders to support this initiative driven by solidarity, training, cohesion, and friendship. Your participation and generosity contribute not only to professional growth but also to making the world a better place.

Let us come together, once again, to make a difference in healthcare and humanity.

Dr. Gabriele L. GASPARINI
Founder, CTO LIVE AID

COMMITTEES
