

APRIL 18TH 20TH

**+ GENEVA +
S W I T Z E R L A N D**

**10TH CONGRESS
OF THE SOCIETY OF ENDOMETRIOSIS
AND UTERINE DISORDERS**

**SEUD
CONGRESS
2024**

FINAL PROGRAM

**ENDOMETRIOSIS
AND UTERINE DISORDERS:**

**TIME FOR INNOVATION,
PRECISION AND STRATEGY**

Society of Endometriosis
and Uterine Disorders

Congress Presidents

Prof. Michael Mueller

Dr. Nicola Pluchino

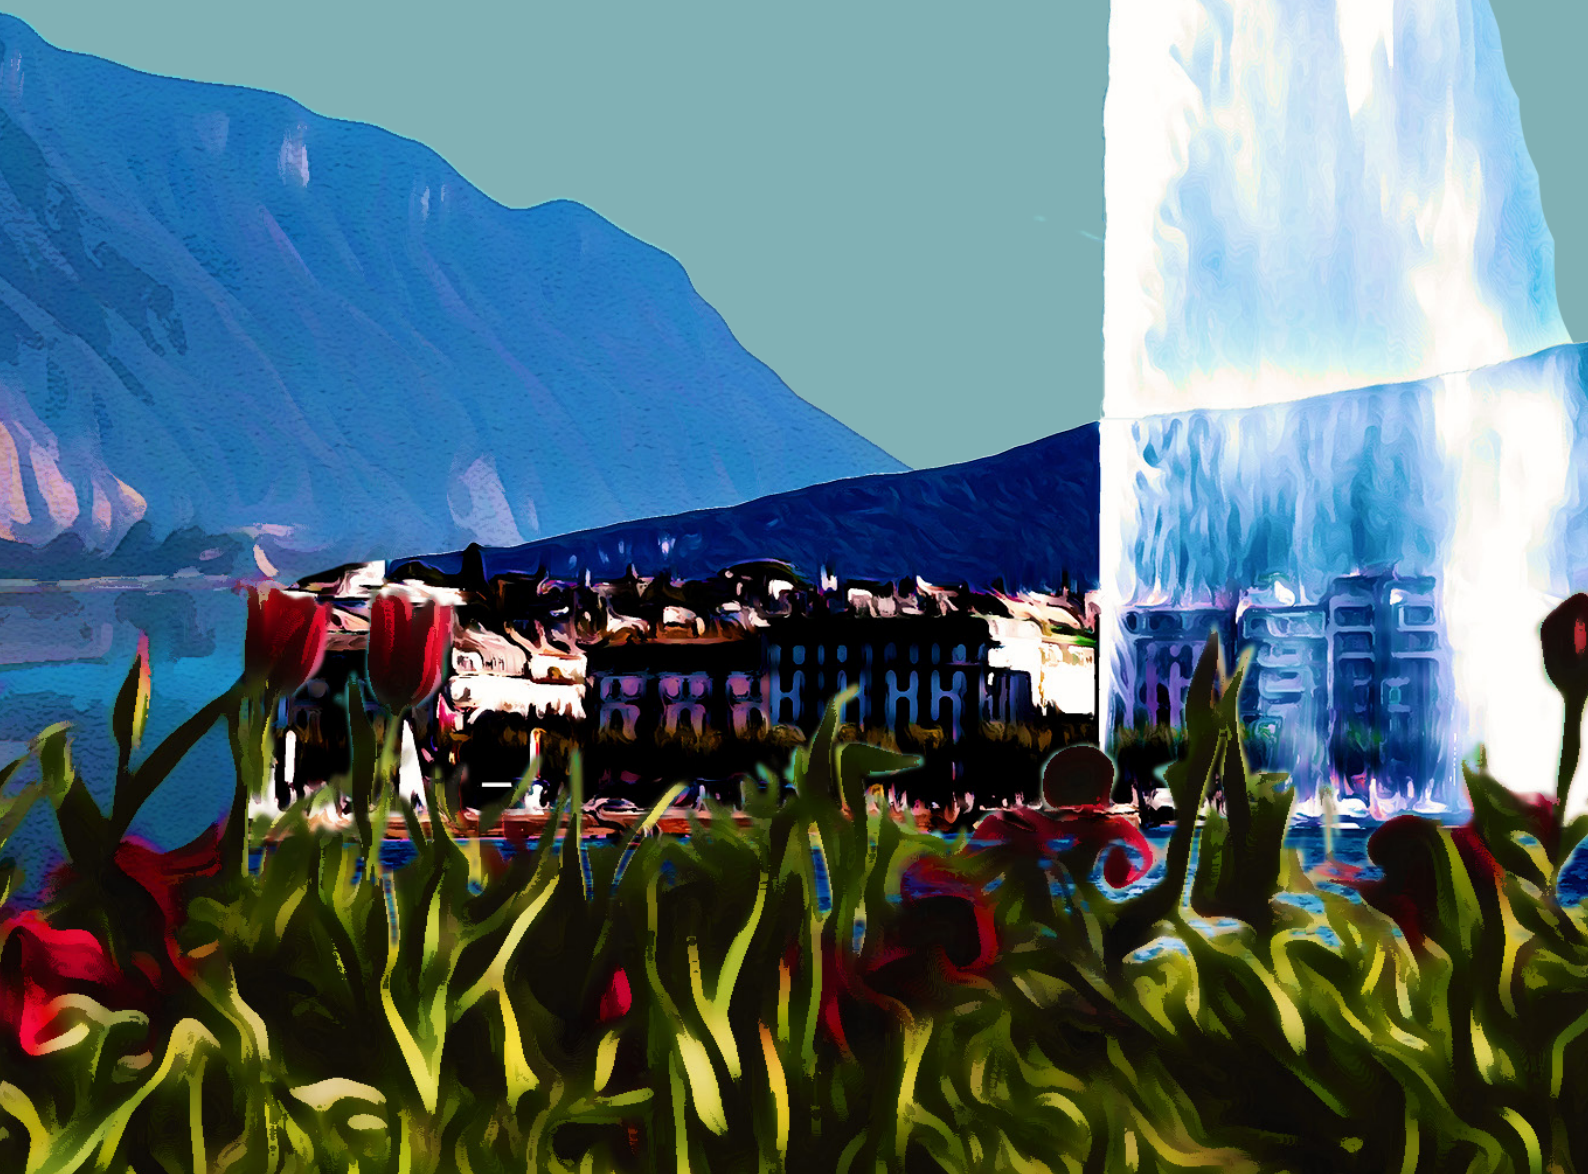

SEUD President

Dr Francisco Carmona, Spain

FINAL SCIENTIFIC PROGRAM

THURSDAY, APRIL 18TH

07h00

WELCOME DESK OPENING

08H00 → 12H00

SIMULTANEOUS PRE-CONGRESS COURSES

08H00 → 12H00

L-1 - Room 1

Pre-Course 1

Organoid Medicine

Models for understanding early events and clinical implications in benign gynaecological pathologies: fibroids, endometriosis and adenomyosis

Organizers: **Marie-Madeleine Dolmans (Belgium) & Ayman Al-Hendy (USA)**

Session 1: Modeling fibroids

- Novel human myometrium and fibroid 3D organoid systems - **Ayman Al-Hendy (USA)**
- Studying risk factors using organoids of female reproductive tract - **Julie Kim (USA)**
- Panel discussion

Session 2: Modeling adenomyosis

- Organoids as a model to study adenomyosis pathogenesis - **Marie-Madeleine Dolmans & Christina Anna Stratopoulou (Belgium)**
- Adenomyosis endometrial organoids as a potential preclinical model to study its pathogenesis and related infertility - **Hortensia Ferrero (Spain)**
- Panel discussion

Coffee break

Session 3: Modeling endometriosis

- The Spheroids as a model for understanding early events in endometriosis pathology - **Asgerally Fazleabas (USA)**
- Panel discussion

08H00 → 12H00

L-1 - Room 4

Pre-Course 2

Infertility

Organizers: **Pietro Santulli (France) & Fernando Reis (Brazil)**

Session 1: ART and endometriosis: difficult cases

- Safety and efficacy of ART in case of endometriosis - **Chloe Maignien (France)**
- When should we move to surgery before ART in case of endometriosis - **Jean-Marie Wenger (Switzerland)**
- How to improve ART outcomes in presence of adenomyosis - **Mathilde Bourdon (France)**
- Should we propose fertility preservation in case of endometriosis - **Isabelle Streuli (Switzerland)**

Coffee break

Session 2: How to optimize implantation chances for women undergoing ART

- Are we sure that endometrial polyps and submucous fibroids must be removed before IVF? - **Silvia Vannuccini (Italy)**
- Uterine congenital malformations, is really surgery needed? - **Sergio Haimovich (Spain)**
- Reproductive outcomes in endometriosis-associated infertility: effects of surgery, IVF and integrated approach - **Antonio Simone Laganà (Italy)**
- Obstetrical outcomes after ART - **Louis Marcellin (France)**
- What is the impact of endometriosis on donor cycles? - **Paola Vigano (Italy)**
- Panelist discussion and pre-congress course close summary

THURSDAY, APRIL 18TH

08H00 → 12H00

L-1 - Room 2

Pre-Course 3

Gynaecological imaging in the transitional phases of life

Organizers: Anne-Elodie Millischer (France) & Thierry van den Bosch (Belgium)

Part 1 - ADOLESCENCE:

- Does adenomyosis exist in adolescents: how can it be detected? - **Francesco G. Martire (Italy)**
- Endometriosis in adolescents: how should it be investigated? - **Anne-Elodie Millischer (France)**
- Menometrorrhagia in adolescents: how to look for it? - **Maya Almemar (UK)**
- Unveiling the Unseen: Mastering Ultrasound for Superficial Endometriosis Detection - **Mathew Leonardi (Canada)**

Coffee break

Part 2 - MENOPAUSE:

- Adenomyosis: update of the new MUSA criteria/particularities at menopause? - **Thierry van den Bosch (Belgium)**
- Endometrioma and ovarian cancer: greater risk at the menopause? Particularities of imaging - **Flavia Sorbi (Italy)**
- Changes in myomas at the menopause: what should be done on imaging? - **Anne-Elodie Millischer (France)**

08H00 → 12H00

L-1 - Room 3

Pre-Course 4

Chronic pain in women: Manual and physical management

Organizers: Cécile Tenot (Switzerland) & Sandrine Balisson (Switzerland)

- Chronic pelvic pain: a need for a multimodal approach - **Ramona Ramsauer (Switzerland)**
- Abdominopelvic pain, mictalgia, dyspareunia & dyschesia in endometriosis: management in osteopathic care
Laure-Isabelle Kazemi (Switzerland)
- Pain education and therapeutic touch: a start to reduce chronic pain - **Cécile Tenot (Switzerland)**

Coffee break

- Chronic pain in endometriosis: skills integration, manual and physical management in physiotherapy - **Biljana Kennaway (Switzerland)**
- Use of neuromodulation (posterior tibial nerve, sacral roots, vagus nerve) - **Daniela Dias (Switzerland)**
- Effectiveness of physical activity in pain management - **Biljana Kennawa (Switzerland)**

08H00 → 12H00 SIMULTANEOUS NATIONAL SESSIONS

INDIA

Chairs: Parul Kotdawala & Asha Rao

Session 1: Fibroid and adenomyosis

- Adenomyosis and fertility - **Asha Rao**
- Adenomyosis: surgical nuances - **Divyesh Shukla**
- Robotic advantage in surgery for diffuse adenomyosis - **Rooma Sinha**
- Decision making for surgeries of intramural & subserous myomas - **Priya Bhawe**
- Challenges of Submucous myoma - **Mala Raj**
- Is there a role of long term medical management for AUB-L - **Manjula Anagani**
- Surgical strategies for hysterectomy in frozen pelvis - **Prashant Mangeshikar**

08H00 → 12H00

L2 - Room 14

Session 2: Endometriosis

- The Indian & South Asia survey about endometriosis - **Pradip Mitra**
- Teenage endometriosis: challenge to diagnose, challenge to treat - **Sonal Kotdawala**
- Fertility and endometriosis: current concepts - **Anu Chawla**
- IVF in Endometriosis - **Malvika Mishra**
- Surgical strategies for colorectal endometriosis - **Abhishek Mangeshikar**
- Adhesions and endometriosis: an unholy alliance - **Parul Kotdawala**
- Pain in endometriosis: various pathways and management - **Parul Kotdawala**

CZECH REPUBLIC **Chairs: Lubomir Mikulasek & Jan Drahonovsky**

08H00 → 10H00

L3 - Room F

In collaboration with

Czech Society of Minimally Invasive + Endoscopic Gynecology

- Power of patients - connecting experts and leading system changes - **Michaela Lebeda**
- Peer support program for patients: the importance of support and education - **Martina Sehnoutkova**
- The effect of complex physiotherapy on the quality of life of patients with endometriosis - **Lenka Chuchutová**
- Endometriosis in Naturotherapy - **Gabriela Tuatti**
- Patient as the center of complex therapy - multidisciplinary bridge - **Jan Kummel**
- Endometriosis associated infertility - surgery or IVF first? - **Jan Drahonovsky**
- EUROENDOCERT as a guarantor of the quality of the endometriosis centres in Czech Republic - **Radek Chvatal**
- Where is the responsibility, possibilities, importance and limits of primary centers: Endometriosis Out-Patient Clinics/Office Gynecology in the field of endometriosis and adenomyosis? - **Lubomir Mikulasek**
- Development of new and innovative methods in the surgical treatment of endometriosis - **Jiri Hanacek**
- The essential role of advocacy in efforts to establish comprehensive endometriosis care - **Ondrej Simetka**
- Discussion and conclusion - **All of the experts**

IRAN

Chair: Saeed Alborzi

08H00 → 10H00

L2 - Room 12

- Ultrasound for the diagnosis of endometriosis - **Ashraf Aleyaseen**
- MRI for the diagnosis of endometriosis - **Mehrzad Lotfi**
- Management of Endometrioma - **Ashraf Moieni**
- Role of ART In endometriosis - **Saghar Salehpor**
- Medical and Surgical Management of DIE - **Khadijeh Shadjoo**
- New updates in endometriosis - **Saeed Alborzi**

LATAM/SPAIN

Chairs: Francisco Carmona (Spain) & Juan Salgado (Porto Rico)

08H00 → 10H00

L2 - Room 11

- Fertility management in women with adenomyosis - **Francisco Carmona (Spain)**
- Challenges in adenomyosis diagnosis - **Mariona Rius (Spain)**
- Parametrial and Sciatic nerve robotic approach - **Thiers Soares (Brazil)**
- Preoperative Transvaginal Ultrasonography for adhesions in TLH to prevent surgical surprises - **Juan Salgado (Porto Rico)**

POLAND

Chairs: Vito Cela, Blazej Meczekalski & Maciej Wilczak

08H00 → 10H00

L3 - Room 16

- Endometriosis in Adolescents - **Agnieszka Drosdzol - Cop**
- Gender incongruence of adolescence -pros and cons of a GnRH treatment - **Monika Grymowicz**
- Lateral uteropexy in the treatment of female genital prolapse - **Maciej Wilczak**
- Endometrial dysbiosis in women with repeated implantation failure: how to diagnose and treat it - **Vito Cela**
- Kisspeptin and Endometriosis - **Blazej Meczekalski**

SWITZERLAND

Chairs: Alexandra Kohl Schwartz & Christian Polli

Isthmocele and Cesarean Scar

08H00 → 10H00

L2 - Room 9

- Isthmocele definition and diagnosis - **Arrigo Fruscalzo**
- Isthmocele and fertility - **Marietta Gulz**
- When to operate isthmocele and when to abstain: when and which route? - **Markus Eberhard**
- Isthmocele and pregnancy outcome - **Ladina Vonzun**

THURSDAY, APRIL 18TH

THAILAND

Chair: **Olarik Musigavong**

08H00 → 10H00
L3 - Room E

- Utilizing Social Media for Women's Health Care - **Olarik Musigavong**
- Enhanced Pre-Operative Evaluation of Pouch of Douglas Obliteration at The Entry Site of The Transvaginal Natural Orifice Transluminal Endoscopic Surgery (vNOTES) by "Sliding Sign" - **Siwaporn Siripenpong**
- Breaking Barriers: Analgesics and the Role of Cannabinoids in Endometriosis Pain Management - **Siriruthai Amnatbuddee**
- The in-depth exploration of the operative office hysteroscopy: How to succeed? - **Woradej Hongsakorn**
- Oocyte cryopreservation in Endometriosis: When & Worth? - **Weena Krutsawad**
- Role of gynecologist in bladder and ureteral endometriosis - **Srithean Lertvikool**
- The Contribution of Obstetricians in Addressing Declining Birth Rates and an Aging Population in Thailand - **Vitaya Titapant**
- Endometriosis and Sexual Satisfaction: How to improve orgasmic phase? - **Thiranun Sasunee**
- Understanding Uterine Fibroids During Pregnancy from a Thai Cultural Perspective - **Wilasinee Chansin**
- Occult Uterine Sarcomas: Pre and Intra-operative Considerations - **Chuleekorn Sritonchai**

CANADA

Chairs: **Sarah Maheux-Lacroix & Jamie Kroft**

10H00 → 12H00
L3 - Room 16

Advanced imaging in minimally invasive gynecology: a game-changer for surgery

- Diagnosis is preparedness: pre-operative ultrasound is necessary before optimal endometriosis surgery - **Mathew Leonardi**
- Adenomyosis: a determining finding for surgical management - **Sarah Maheux-Lacroix**
- Cesarean Scar Defect - Diagnosis, Treatment and Prevention - **Ally Murji**

CHINA

Chairs: **Wen Di, Jinhua Leng & Jinghe Lang**

10H00 → 12H00
L3 - Room E

- Evaluation and laparoscopic treatment for bladder endometriosis - **Jinhua Leng**
- Laparoscopic techniques for Rectovaginal septum endometriosis - **Yingfang Zhou**
- Laparoscopic non stapler intestinal segmental resection for bowel endometriosis and postoperative management - **Xinmei Zhang**
- Laparoscopic resection of abdominal wall endometriosis - **Shuzhong Yao**
- MDT assists in the management of complex endometriosis patients with fertility requirement - **Lijie Wang**
- Education for patients with endometriosis - **Guoyun Wang**
- Diagnosis and treatment strategies for adolescent endometriosis - **Keqin Hua**
- Transabdominal resection and abdominal wall repair for giant abdominal endometriosis - **Yi Dai**

EU-TRENDO

Chairs: **Attila Bokor (Hungary) & Ludwig Kiesel (Germany)**

10H00 → 12H00
L3 - Room F

- Novel 3D models of the endometrium and endometriosis - **Martin Götte (Germany)**
- Stem cells and progenitor cells in endometriosis - **Antonio Simone Laganà (Italy)**
- Genetics in endometriosis: leveraging results for patient benefit - **Krina Zondervan (UK)**
- Towards a shorter diagnostic delay in endometriosis; the GP perspective - **Annemiek Nap (The Netherlands)**

12H00 → 13H00
L0 - Plenary room A

LUNCH SYMPOSIUM N°1

Linzagolix - a flexible treatment option for women with uterine fibroids

Chair: **Marie-Madeleine Dolmans (Belgium)**

- Welcome and Introduction - **Marie-Madeleine Dolmans (Belgium)**
- Uterine fibroids - disease burden and future directions - **Francisco Carmona (Spain)**
- Linzagolix - the option of flexible individualized therapy for women with uterine fibroids - **Sven Becker (Germany)**
- Q&A and closing remarks - **All of the experts**

12H00 → 13H00
Exhibition hall

Lunch Break & Exhibition Hall Visit

13H00 → 13H10

L0 - Plenary room A

OPENING CEREMONY

SEUD President: Francisco Carmona (Spain)

Congress Presidents: Michael Mueller & Nicola Pluchino (Switzerland)

13H10 → 13H30

L0 - Plenary room A

BIG BANG TALK N°1 - Charismatic leadership

Chairs: John Antonakis (Switzerland)

13H30 → 15H00

L0 - Plenary room A

Plenary Session 1 - Endometriosis: Strategies for pain management

Chairs: Christian Polli (Switzerland) & Paola Vigano (Italy)

with the unrestricted
financial support of

- Neurobiology of pain - **Brett McKinnon (Australia)**
- Adolescents and young women - **Sara Imboden (Switzerland)**
- In patient with pregnancy desire - **Francisco Carmona (Spain)**
- In patient with recurrent pain - **Alan Lam (Australia)**

15H00 → 15H30

L0 - Plenary room A

KEYNOTE LECTURE 1

Chair: Marie-Madeleine Dolmans (Belgium)

- Heavy menstrual bleeding and dysmenorrhea: the key symptoms of menstruation-related disorders - **Felice Petraglia (Italy)**

15H30 → 16H30

L0 - Plenary room A

SYMPOSIUM N°1

Next Generation Sequencing in Saliva transforming clinical practice and precision medicine

Chair: Michael Mueller (Switzerland)

- Endometriosis: The Invisible Disease? - **Megan N. Wasson (USA)**
- Endometriosis: Game over in 2024? - **Sofiane Bendifallah (France)**
- How to deal with unexplained chronic pelvic pain? - **Michelle Nisolle (Belgium)**
- Conclusion - **Charles Chapron (France)**

15H30 → 16H30

L1 - Plenary room B

SYMPOSIUM N°2

High-frequency surgery innovations and how they support treatment excellence in different manifestations of endometriosis

- First results with precise APC - a new treatment method for ovarian endometrioma - **Massimo Candiani (Italy)**
- Benefits of a new energy device for treatment of deep infiltrating endometriosis - **Carlo Alboni (Italy)**

16H30 → 17H00

Exhibition hall

Coffee Break & Exhibition Hall Visit

17H00 → 18H30

SIMULTANEOUS PLENARY SESSIONS

L0 - Plenary room A

Plenary Session 2 - **Uterine congenital malformations**

Chair: Peter Martin Fehr (Switzerland)

Provoker: Attilio di Spiezo (Italy)

- Diagnosis by ultrasound - **Peter Oppelt (Austria)**
- Surgical therapy - **Sergio Haimovich (Spain)**
- Obstetrical outcome - **Stefano Bettocchi (Italy)**

L1 - Plenary room B

Plenary Session 3 - **IVF in Endometriosis and Adenomyosis**

Chairs: Paolo Levi-Setti (Italy) & Lubomir Mikulasek (Czech Republic)

- Impact of adenomyosis on implantation in IVF patients - **Jacques Donnez (Belgium)**
- Cumulative pregnancy rate in endometriosis and adenomyosis - **Pietro Santulli (France)**
- The optimal ovarian stimulation protocol for women with endometriosis - **Ying Cheong (UK)**
- Management of large endometrioma before IVF - **Nicola Pluchino (Switzerland)**

18H30 → 19H30
Exhibition hall

WELCOME COCKTAIL

FRIDAY, APRIL 19TH

07H30

WELCOME DESK OPENING

08H00 → 12H30

Simultaneous Free Communications (page 32)

08H00 → 09H30

Plenary Session 4 - Heavy Menstrual Bleeding (HMB)

L0 - Plenary room A

Chairs: Jacques Donnez (Belgium) & Daniel Surbek (Switzerland)

- HMB: Basic Science - **Ayman Al-Hendy (USA)**
- Iron Deficiency and Anemia - **Drazen Pulanic (Croatia)**
- HMB: Medical Management - **Fernando Reis (Brazil)**
- Vicious life cycle of ID/IDA in women: How to translate improvements into clinical practice? - **Daniel Surbek (Switzerland)**

09H30 → 10H00
Exhibition hall

Coffee Break & Exhibition Hall Visit

10H00 → 12H30

SEUD SURGICAL TALK SHOW - Horace Roman (France) & Gaby Moawad (USA)

Experts: Marcello Ceccaroni (Italy), Attilio di Spiezio (Italy), Michael Mueller (Switzerland), Filipa Osorio (Portugal) & Nicola Pluchino (Switzerland)

L0 - Plenary room A

Experts invited: Luigi Nappi (Italy), Juan Gilabert (Spain)

12H30 → 13H00

KEYNOTE LECTURE 2

L0 - Plenary room A

Chair: Markus Eberhard (Switzerland)

- Endometriosis as a systemic disease - **Charles Chapron (France)**

13H15 → 14H15

LUNCH SYMPOSIUM N°2

Catalyzing hope: innovations in endometriosis therapeutic solutions

Chairs: Michael Mueller (Switzerland) & Roberto Marci (Switzerland)

L0 - Plenary room A

GEDEON RICHTER

- Addressing Current Gaps in the underestimated effects of Endometriosis - **Filipa Osorio (Portugal)**
- Unveiling the Missing Element in Modern Endometriosis Symptom Management - **Christian Becker (UK)**
- Enhancing Quality of Life for Endometriosis Patients - **Annemiek Nap (The Netherlands)**

13H00 → 14H00
Exhibition hall

Lunch Break & Exhibition Hall Visit

14H15 → 14H45

BIG BANG TALK N°2

L0 - Plenary room A

- Beyond the Pain: Unveiling the Economic Impact of Endometriosis on Women and Society - **Anouk Petersen (Switzerland)**

14H45 → 16H15

SIMULTANEOUS PLENARY SESSIONS

L0 - Plenary room A

Plenary Session 5 - Mini-invasive management of myoma

Chairs: Jean Dubuisson (Switzerland) & Bernard Chern (Singapore)

- Basic science lecture - **Marie-Madeleine Dolmans (Belgium)**
- Intra-uterine surgery - **Attilio di Spiezio (Italy)**
- Radiofrequency - **Thomas Röemer (Germany)**
- Embolization/Hifu/MRgFUS for Uterine Myomas and Adenomyosis - **Jaron Rabinovici (Israel)**

14H45 → 16H15

L1 - Plenary room B

Plenary Session 6 - **New therapeutic strategies in endometriosis and uterine disorders**

Chairs: Antonella Martino (Switzerland) & Felice Petraglia (Italy)

- Is there a place for HIFU in the treatment of Deep Infiltrated Endometriosis (DIE)? - **Gil Dubernard (France)**
- Artificial Intelligence (AI) - **Stavroula Mouggiakakou (Switzerland)**
- New Therapeutic Targets for Endometriosis - **Martin Götte (Germany)**
- Will Microbiome become a new agent in endometriosis therapy? - **Siobhain O'Mahony (Republic of Ireland)**

16H15 → 17H15

L0 - Plenary room A

SYMPOSIUM N°2

Menstrual bleeding as a vital sign: heavy bleeding in specific populations

Chair & Speakers: Giovanni Grandi (Italy), Silvia Vannuccini (Italy) & Edson Ferreira (Brazil)

17H15 → 17H45

Exhibition hall

Coffee Break & Exhibition Hall Visit

17H45 → 19H00

L0 - Plenary room A

CONSENSUS / DEBATE: MANAGEMENT OF ENDOMETRIOMA

Chairs: Francisco Carmona (Spain), Michael Mueller & Nicolas Pluchino (Switzerland)

- Cystectomy - **Attila Bokor (Hungary)**
- Vaporization - **Carla Tomassetti (Belgium)**
- Sclerotherapy - **Horace Roman (France)**
- ART - **Paola Vigano (Italy)**

20H30

SEUD CONGRESS DINNER at Bâtiment des Forces Motrices - Geneva

SATURDAY, APRIL 20TH

08H30

WELCOME DESK OPENING

09H00 → 10H30

SIMULTANEOUS PLENARY SESSIONS

L0 - Plenary room A

Plenary Session 7 - **How to manage endometriosis associated co-morbidities**

Chairs: Nicola Samartzis (Switzerland) & Ayman Al-Hendy (USA)

- Immune cells and co-morbidities - **Hugh Taylor (USA)**
- Gastrointestinal comorbidities - **Silvia Vannuccini (Italy)**
- Oncological risk - **Michael Mueller (Switzerland)**
- Mental health - **Gayathri Delanerolle (UK)**

L1 - Plenary room B

Plenary Session 8 - **Adenomyosis**

Chairs: Philippe Brossard (Switzerland) & Jinhua Leng (China)

- Basic Science in Adenomyosis - **Sun-Wei Guo (China)**
- Imaging, subtypes and classification - **Juan Luis Alcazar (Spain)**
- IVF/ Pregnancy - **Engin Oral (Turkey)**
- Conservative Surgery - **Gaby Moawad (USA)**

10H30 → 11H00
Exhibition hall

Coffee Break & Exhibition Hall Visit

11H00 → 11H30

KEYNOTE LECTURE 3

L0 - Plenary room A

Chair: Charles Chapron (France)

- Fertility preservation in Endometriosis - **Alexandra Kohl Schwartz (Switzerland)**

L0 - Plenary room A

Plenary Session 9 - **SEUD Global Health - in partnership with Red Cross**

Chairs: Anne- Caroline Benski & Nicola Pluchino (Switzerland)

- Menstruation and Human rights - **Hannah Wu (Switzerland) - Chief - Women's Rights and Gender Section -Office of the United Nations High Commissioner for Human Rights.**
- Period Poverty - **Pernille Fenger (Switzerland) - Director, Representation Office in Geneva , UNFPA, United Nations Population Fund**
- Endometriosis management in Africa - **Charles Muteshi (Kenya) - Assistant Professor and Subspecialist in Reproductive Endocrinology and Fertility at Aga Khan University Hospital**

ICRC

13H00 → 13H30

SEUD RESEARCH GRANT RESULTS

L0 - Plenary room A

- SEUD Grant research 2023 - **Asgerally Fazleabas (USA)**

13H30 → 14H00

AWARDS & CLOSING CEREMONY

SEUD President: **Francisco Carmona (Spain)**

Congress Presidents: **Michael Mueller & Nicola Pluchino (Switzerland)**

L0 - Plenary room A

FREE COMMUNICATION PROGRAM

08H00 → 09H30

SIMULTANEOUS FREE COMMUNICATIONS

L-1 - Room 1

Free Communications 1

- Optimizing treatment strategies for abnormal uterine bleeding associated with endometrial hyperplasia: what is the role of the immunohistochemistry markers? - **Kristina Shcherbatiuk (Russia)**
- Drug repurposing screening and mechanism analysis using human MMSCs derived organoids - **Mervat Omran (USA)**
- Hematological Safeguards for Uterine Surgery - **Hesham Arab (KSA)**
- Acupuncture is effective in treating pelvic pain associated to endometriosis, specially in patients with associated myofascial pain **Carlos Souza (Brazil)**
- Understanding Dysmenorrhea in Women with Polycystic Ovary Morphology (PCOM): A Retrospective Study - **Paola Romeo (Canada)**
- The clinical manifestations of benign ovarian locations - **Dilafuz Urinbaeva (Uzbekistan)**
- The role of Neuron Growth Factor (NGF) and Interleukin-10 (IL-10) in the development of pain in adenomyosis: A Narrative Review **Agus Heriyanto (Indonesia)**

L-1 - Room 2

Free Communications 2

- Impact of concomitant hysterectomy on menopausal symptoms and sexual functioning in BRCA mutation carriers following salpingo-oophorectomy - **Michelle Jacobson (Canada)**
- Assessment of expression of certain subunits of nicotinic acetylcholine receptors, and long non-coding rna and ribosomal genes in cells of uterine fibroids - **Mariami Kaviladze (Russia)**
- Investigating the Effect of Nanoplastics on Female Reproductive System - **Mahsa Gholiof (Canada)**
- Accounting for Intraoperative Resuscitation During Surgical Management of Placenta Accreta Spectrum Cases at a Tertiary Care Centre: A Quality Improvement Retrospective Cohort Study - **Mahsa Gholiof (Canada)**
- MRI evaluation of Müllerian duct anomalies: a comparison of different classification systems - **Laura D'Hoore (Belgium)**
- Is it possible to predict in-vitro fertilization success by epigenetic age? - **Letizia Li Piani (Italy)**
- High risk pregnancy after uterine transplant: atypical hemolytic uremic syndrome - **Mariona Rius (Spain)**
- Menstrual pain and bleeding in adolescence in women who develop endometriosis - **Michela Santalucia (Italy)**

L-1 - Room 3

Free Communications 3

- Therapeutic Role of Pelvic Lymphadenectomy for Locally Advanced Cervical Cancer: A SEER-based Study - **Aiyuan Wu (China)**
- Endometrial Insights: Unmasking Endometriosis through Single-Cell Profiling and AI-Based Prediction **Lea Duempelmann (Switzerland)**
- Intraoperative Appearance of Endosalpingiosis: A Single-Center Experience of Laparoscopic Findings and Systematic Review of Literature **Nicolas Samartzis (Switzerland)**
- Adenomyosis with predominance of the posterior myometrium is associated with rectal and intestinal deep endometriosis on magnetic resonance imaging (MRI): a retrospective study - **Nicolas Samartzis (Switzerland)**
- Machine learning predicts poor pain-related quality-of-life after endometriosis surgery - **Dwayne Tucker (Canada)**
- Surgical Management of Ovarian Endometriomas: A Service Evaluation of Clinical Outcomes at UHS - **Emily Kent (UK)**
- Proteomic profiling of ovarian endometriosis for recurrence risk prediction - **Carina Masferrer Ferragutcasas (Spain)**

L-1 - Room 4

Free Communications 4

- Spatially resolved cell atlas of the endometrium and endometriotic lesions - **Sharat Atluri (Australia)**
- Genetic susceptibility to endometriosis manifested in endometrial stromal cell-epithelial organoid interaction
Brett McKinnon (Australia)
- Excessive endoplasmic reticulum stress due to endometriosis results in ovarian dysfunction in a mouse model of ovarian endometriosis
Jingsong Yi (China)
- Differential oral, vaginal, and stool microbial signatures in patients with and without endometriosis - **Fatima El-Assaad (Australia)**
- Endometriosis and risk of depression among oral contraceptive users: a pooled analysis of cohort studies from 13 countries
Pauline De Corte (Germany)
- Endo-Teach: an innovative secondary-school teaching package to educate on menstrual health and to build awareness of endometriosis in Switzerland - **Fiona Irani (Switzerland)**
- Health and Socioeconomic Well-being of Women with Endometriosis and Provoked Vestibulodynia: Longitudinal Insights from Swedish Registry Data - **Philip Haraldson (Sweden)**

L2 - Room 9

Free Communications 5

- SPIRIT Long-Term Extension Study: Subgroup Analyses of Dysmenorrhea and Non-Menstrual Pelvic Pain Response Through 104 Weeks.
Christian Becker (UK)
- SPIRIT Long-Term Extension Study: Post Hoc Analysis of Relugolix Combination Therapy Through 104 Weeks in Young Adults (18-24 Years Old) - **Christian Becker (UK)**
- Linzagolix improves endometriosis-associated pain: Key findings from EDELWEISS 3, a placebo-controlled phase III study
Felice Petraglia (Italy)
- Novel therapy with anti-IL-8 neutralizing antibody for endometriosis based on pathophysiology - inflammation and fibrosis in the component of interstitium of endometriosis - **Ryo Konno (Japan)**
- Single-cell transcriptome analysis of early placentas in endometriosis - **Kheira Bouzid (France)**
- NEK2 promotes development and causes decidualization disorder in endometriosis via phosphorylation of FOXO1
Tingting Yang (China)
- Advanced Haemostasis Evaluation in Endometriosis - **Maira Casalechi (Italy)**

L2 - Room 11

Free Communications 6

- Prospective diagnostic accuracy study using transvaginal ultrasound according to the IDEA consensus with the novel addition of superficial endometriosis - **Ido Mick (Canada)**
- Determining the Prevalence and Severity of Appendiceal Endometriosis in Women with Diaphragmatic Endometriosis; Applying the Menstrual Reflux Theory - **Flavia Pagano (Switzerland)**
- A clinicoanatomic analysis of Bladder endometriosis and its association with adenomyosis - **Milena Schnell (Switzerland)**
- Bioinformatic approach highlights cellular compositions in endometriosis organoids - **Nazli Ece Ordueri (Turkey)**
- Comparative effect of different surgical treatments for ovarian endometrioma on AMH: a systematic review and network meta-analysis
Konstantinos Nirgianakis (Greece)
- Clinical features and sonographic characteristics of deep endometriosis affecting the sacral plexus and sacral nerve roots with TVS
Gábor Szabó (Hungary)
- Establishment of experimental protocols for microplastic exposures in human endometrial cells and possible association of microplastics in the pathogenesis of endometriosis - **Hyemin Park (Korea)**
- Moving forward with endometriosis MRI protocol. Potential for more sensitive endometriosis diagnostics and faster MRI protocol
Kirsi Härmä (Finland)

L2 - Room 12**Free Communications 7**

- Pathologic findings and markers of endometriosis in the EndoSearch cohort of patients - **Guy Lesec (France)**
- Research on the Role of Iron Overload in Ovarian Endometriosis and Its Clinical Implications - **Guoyun Wang (China)**
- Exploring the Influence of Adenomyosis with or without Endometriosis on Fertility and Pregnancy Outcomes: Insights from a Retrospective Cohort with histologically confirmed adenomyosis - **Georgios Kolovos (Switzerland)**
- Proportion of Women Achieving Mild-to-No Endometriosis-Associated Pain with Relugolix Combination Therapy over 24 Weeks in the SPIRIT program - **Helen Saunders (Switzerland)**
- Association between Endometriosis and Cardiovascular Disease Risk Profile - **Olga Bougie (Canada)**
- Endometriosis as a risk factor for ischemic stroke: a population-based cohort study - **Olga Bougie (Canada)**
- The Ranking of Interventions for Endometriosis-Associated Pain: A Network Meta-analysis - **Tatjana Gibbons (UK)**

L2 - Room 14**Free Communications 8**

- Serum Progesterone levels do not differ between endometriosis and unaffected patients who conceive in Hormone Replacement Therapy-Frozen Blastocyst Transfer (HRT-FBT) cycles - **Mathilde Bourdon (France)**
- Exploring the association between endometriosis and vaginal dysbiosis: an analysis of Fusobacterium sp. prevalence in vaginal swab through NGS techniques - **Matteo Niero (Italy)**
- How to create and manage assembloids, the most accurate 3D model of endometrium - **Margherita Rossi (Italy)**
- A mobile application as supportive treatment of endometriosis: the effect on quality of life and endometriosis-associated pain. A randomized controlled trial. MASQUE-Trial - **Marietta Gulz (Switzerland)**
- Genetic analysis of potential biomarkers and therapeutic targets in pyroptosis and glycolysis from endometriosis - **Rui Gu (China)**
- Abdominal bloating and gastro-intestinal symptoms in endometriosis: lactose intolerance and SIBO comorbidities - **Virginia Manzi (Italy)**
- Robotic-assisted laparoscopy excision of severe form of diaphragmatic endometriosis: a retrospective study on 60 patients
Horace Roman (France)
- Prediction of infertility in patients with endometriotic disease - **Janna Pakhomova (Uzbekistan)**

L3 - Room E**Free Communications 9**

- Mobile application for the early recognition of menstrual irregularities and diseases (like endometriosis) - **Salamon Adrienn (Hungary)**
- Endometriosis as a risk factor for severe pelvic inflammatory disease - **Marta Camacho (Spain)**
- Previous surgery for endometriosis: an additional factor for obstetric complications? - **Anna Rosa Speciale (Italy)**
