

February
14th & 15th
2025

Hamburg, Germany

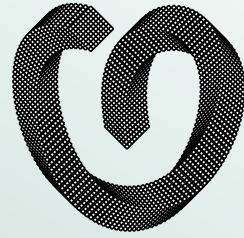

COURSE DIRECTORS

Kambis Mashayekhi
MediClin Heartcenter
Lahr, Germany

Mohamed Ayoub
University Heart Center Bad
Oeynhausen, Germany

GUEST COURSE DIRECTORS

Khaldoon Alaswad
Henry Ford Hospital,
United States

GERMAN
CTO & CHIP meeting

**INTERNATIONAL CONGRESS
WITH INTERACTIVE LIVE CASES**

PRELIMINARY PROGRAM

February 14th 2025

INTRODUCTION

09:00
10:45

SESSION 1

Coronary artery disease and severe aortic stenosis

- › PCI Timing in TAVI Patients

09:15

Live case #1

TAVI in a Patient with severe CAD or CHIP after TAVI

- › Ask the surgeon: Is complete revascularization beneficial in patients with aortic stenosis?
- › Severe coronary artery disease: Which transcatheter valve should be chosen?

10:45

Coffee break

11:15
13:15

SESSION 2

Ischemic Cardiomyopathy and Functional Mitral Regurgitation

11:15

Live case #2

CHIP after interventional valve treatment

- › Ask the surgeon: No doubt that this patient needs a surgent
- › No doubt that this patient needs an interventionalist

12:00

Live case #3

Post-CABG-PCI after mitral valve reconstruction/replacement

13:15

Lunch

February 14th 2025

14:15
16:15

SESSION 3

Calcified Post CABG CTO - Part I

14:15

Live case #4

Post CABG CTO PCI with low ejection fraction

- › Why are post-CABG patients so different?
- › Ask the surgeon: What are the limitations of redo surgery after graft failure?
- › Complete revascularisation after CABG - any evidence?
- › Distal disease in post-CABG - a place for DCB?
- › LIAB complete revascularisation in post-CABG patient

16:15

Coffee break

16:45
18:15

SESSION 4

Calcified Post CABG CTO - Part II

16:45

Live case #5

Post CABG CTO PCI with low ejection fraction - Part II

- › Improving outcomes with Imaging
- › My tips and tricks: How to overcome anastomosis issues
- › My tips and tricks: Ostial Occlusions post-CABG
- › Do we need CT imaging in Post CABG patient
- › LIAB: High Risk PCI with LVAD

18:30

ADJOURNMENT

Saturday 15th 2025

INTRODUCTION

08:30
10:45

SESSION 5 Calcified MVD

08:30

Live case #6 PCI post LVAD?

- › Ask the surgeon: What are the technical challenges in calcified coronary arteries?
- › Why did the Eclipse show no benefit for orbital atherectomy?
- › How to treat calcified nodules?
- › Rotablation in CTOs
- › Just Crack and DCB it
- › LIAB (Orbital atherectomy and OCT)

10:45

Coffee break

11:15
13:00

SESSION 6 PCI with haemodynamic support

11:15

Live case #7 Complete Revascularization with LVAD

- › Ask the surgeon: Myocardial revascularization in low ejection fraction
State of the art!
- › Evidence for complete revascularisation in patients with low EF?
- › Evidence for CTO PCI in impaired LV Function
- › Evidence for LV-protection in low ejection fraction?
- › Haemodynamic collapse during protected PCI
- › LIAB - LVAD Regret

13:00

Lunch

Saturday 15th 2025

14:00
16:30

SESSION 7

When all comes to an end: LVAD & Right heart failure

14:00

Live case #8

CHIP with low ejection fraction

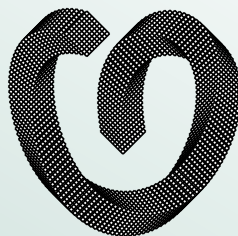

- LVAD: Timing and Long-Term-Follow-up (What the cardiologist has to know)
- TAVI in LVAD patients with aortic insufficiency
- LVAD - Outflow - Problem
- Ask the surgeon: Managing RV-failure with RV-ECMO and LVAD RP
- Right heart failure after LVAD
- LIAB

15:45

COFFEE BREAK CLOSING

February
14th & 15th
2025

Hamburg, Germany

GERMAN
CTO & CHIP meeting
